

FRUIT INGREDIENTS FOR FOOD & BEVERAGE INDUSTRY AND FOOD SERVICE

Juices & Liquid Products
Chunked & Packaged Products
Food Service

The fruit expert
for the food and
beverage industry.

Excellent fruit ingredients for all applications.

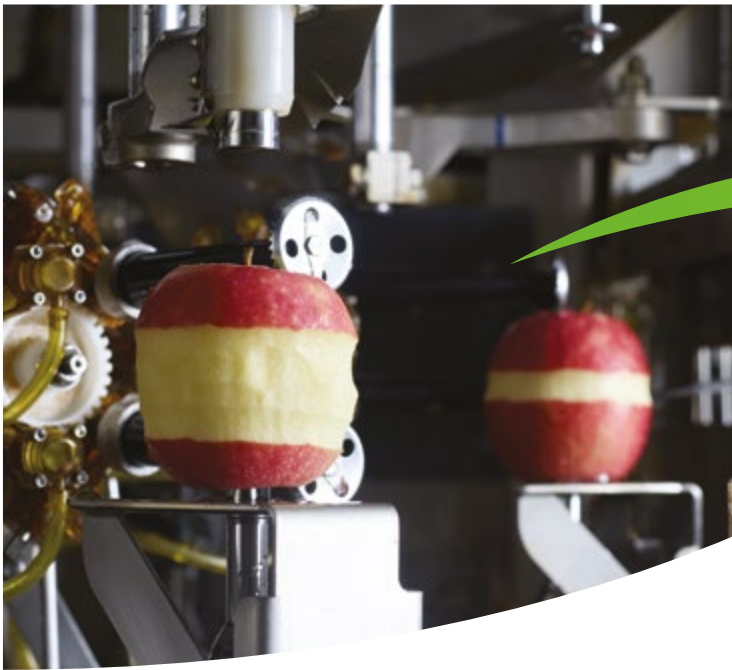

LOCAL ROOTS, GLOBAL PERFORMANCE

VOG Products is owned by two producer organisations from South Tyrol and 17 South Tyrolean fruit cooperatives. These in turn, are made up of more than 6,000 fruit-growing families who cultivate more than 20,000 hectares of orchards. For more than 50 years, VOG Products has been processing fruits into high-quality semi-finished products, with an export share of more than 90%.

OUR LAND

Welcome to the apple paradise. Our apples grow at various altitudes in the largest continuous growing region in Europe (South Tyrol and Trentino). What characterises the region: warm days, cool nights and 300 sunny days each year. These are the best conditions for top quality.

Quality assurance
begins with the fruit.

WE HANDLE EVERYTHING,
FROM THE FIELD TO PROCESSING

We perfectly manage the entire production chain, guaranteeing constant availability and traceability of the raw material.

4,000 TONNES OF FRUIT PROCESSED PER DAY
100% TRACED ORIGIN

EXCELLENT, SAFE PRODUCTS THAT ARE
ALSO VALUABLE FOR BUSINESS

High-quality, traced-origin raw material, impeccable transformation processes and constant investment in research and development. For healthy, natural, 100% safe products.

SAFETY IS THE COMMON THREAD THAT LINKS OUR WHOLE PRODUCTION CHAIN

From farmers to cooperatives, via the entire production process, to the final product: nothing escapes our control. The highest quality, hygiene and traceability requirements are guaranteed by the in-house laboratory, which performs continuous daily analysis, supervised by third party organizations.

From:
Italian Alps

Outstanding Quality is our promise.

It starts with the raw materials from our sustainable supply chain, continues with strict control steps in the orchards and ends with the finished product. FROM is guaranteed and outstanding quality certified by VOG Products.

A SUPPLY CHAIN LIKE NO OTHER.
Apples from our members cultivated according the principles of integrated or organic agriculture are used to produce FROM products.

SUSTAINABILITY IS PART OF OUR DNA
We set on the highest quality standards and ensure this through certifications, from the orchards to the final product. On demand our FROM products can be FSA-certified.

SHORT DISTANCES

We process fruits from our surrounding area.

SUN-RIPENED AND HAND-PICKED

In South Tyrol, apples are grown on small family farms under ideal climatic conditions.

ONE STEP AHEAD

We are committed to the integrated (AGRIOS) and to the organic apple cultivation, which guarantee an exemplary agricultural production system.

INTEGRATED AND ORGANIC PRODUCTION

natural and sustainable cultivation

CAREFUL USE OF NATURAL RESOURCES

and strictly limited use of fertilizers and pesticides

SPECIFIC GUIDELINES

taking into account scientific research and experiences from the practice

OUR RANGE

The raw material
we process.

CUSTOMIZED SOLUTIONS
We develop tailor made and customized product solutions.

SINGLE-VARIETY

All products are also available in single-variety recipes.

SUSTAINABLE APPLE PRODUCTION

100 % traceable and sustainable raw material.

APPLES

Trentino-South Tyrol has perfect conditions for apple cultivation. It is home to the largest enclosed area in Europe for apple cultivation. The result is a rich harvest, a wide range of varieties and apples with a splendid colour and unique flavour.

PEARS, KIWIS, PEACHES, APRICOTS, CHERRIES

The quality of the raw materials is ensured by careful selection of varieties, cultivation areas, agronomic techniques and harvesting methods and times. We have established strong relationships of deep trust with producers, who are able to guarantee freshness and quality that respect our very high standards.
