"Gastronomy is the art of using food to create happiness"

This is the mission that unites 11er, the potato specialist from Vorarlberg, and the Association of Austrian Chefs (VKÖ), an association with a rich tradition. We are both driven by our common support for young talents in the Austrian culinary world. Home-made recipes, regional ingredients and an unwavering passion for potatoes make 11er an ideal partner for the VKÖ. And since the VKÖ committed itself to developing young talents, the culinary arts, further education and sustainability, we ratified our collaboration 5 years ago and laid the foundation for a long-term cooperation.

The Magazine

We at 11er, who not only try to get the best out of potatoes every single day but also attempt to inspire chefs and gastronomy professionals with our unusual product creations, were able to learn a lot of interesting things during this project. It was so exciting to see just how much motivation and creativity some fantastic young people showed in wanting to learn to be professional chefs. We had the most fun working together on realising the 11er Gourmet Food Magazine. Eight young and upcoming talents got to try out their recipes in our 11er kitchen. Unusual creations using the 11er potato specialities, perfectly arranged dishes prepared with great manual skill and expert timing to ensure the best possible photo meant that the work was a real challenge for our young chefs, but one they mastered effortlessly! Let yourself be inspired!
