WELCOME TO THE DARING WORLD OF REBELS 0.0%

where the spirit of innovation meets the essence of rebellion in every sip

OUR MISSION

Three years ago, we embarked on a journey to revolutionize the adult drinking culture, and today, our mission remains unwavering. As we celebrate our growing presence in the market, we invite you to join the cheers revolution, a movement that challenges norms and sparks a new era in socializing.

OUR PRODUCTS

At the heart of our revolution lies our portfolio of products. Crafted with precision and passion, each offering embodies the spirit of rebellion while ensuring you can enjoy the experience without compromise. Our portfolio reflects our commitment to reimagining the possibilities of adult drinking.

OUR PROCESS

Crafted & produced in the Swiss Alps, we are proud to be the first Swiss alcohol-free spirit alternatives in the market. Thanks to our double distilling process, in which we combine traditional and modern distilling methods, we manage to completely avoid alcohol along the way and yet still bring out the intense and complex flavors.

Join us as we continue to break norms, grow our rebel alliance, and expand our influence across Europe and beyond!

**REBELS 0.0% is not just a brand: it's a rebellion against the ordinary,
an invitation to celebrate life on your terms.**
