

GX WALL+

WHITE MARBLE 30X60 CM

NEW GENERATION OF COMPOSITE WALL TILES

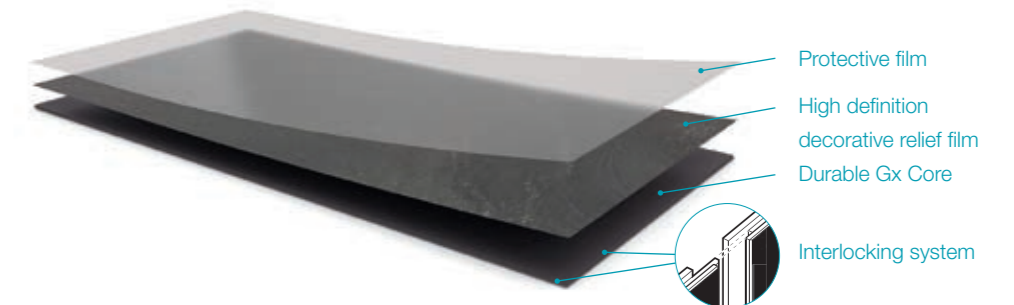

GX WALL

IDEAL FOR REDECORATING
YOUR WALLS

GX WALL⁺ is durable and 100% waterproof wall cladding with easy to install interlocking system. GX WALL+ wall tiles are made up of strong solid panels providing an elegant finish to indoor surfaces.

GX WALL⁺ represents a real alternative to traditional tiles and is both quick to install and easy to clean.

CREAM SLATE 120X60 CM

AN ALTERNATIVE TO TRADITIONAL TILING

GREY SLATE

SIMPLER

GX WALL⁺ can be fitted by direct glue application onto a rough or uneven surface, on an existing tiling or fitted on a bracket frame.

QUICKER

No grouting required thanks to the interlocking system, no drying time required, the material is easy to work with and the work space remains always dust-free and clean.

MORE COMFORTABLE

Easy to carry and handle GX WALL⁺ is 3 to 4 times lighter than traditional tiles and requires no specific tools.

WATERTIGHT

100% watertight material, non-porous, mould, bacteria, moisture and stain resistant.

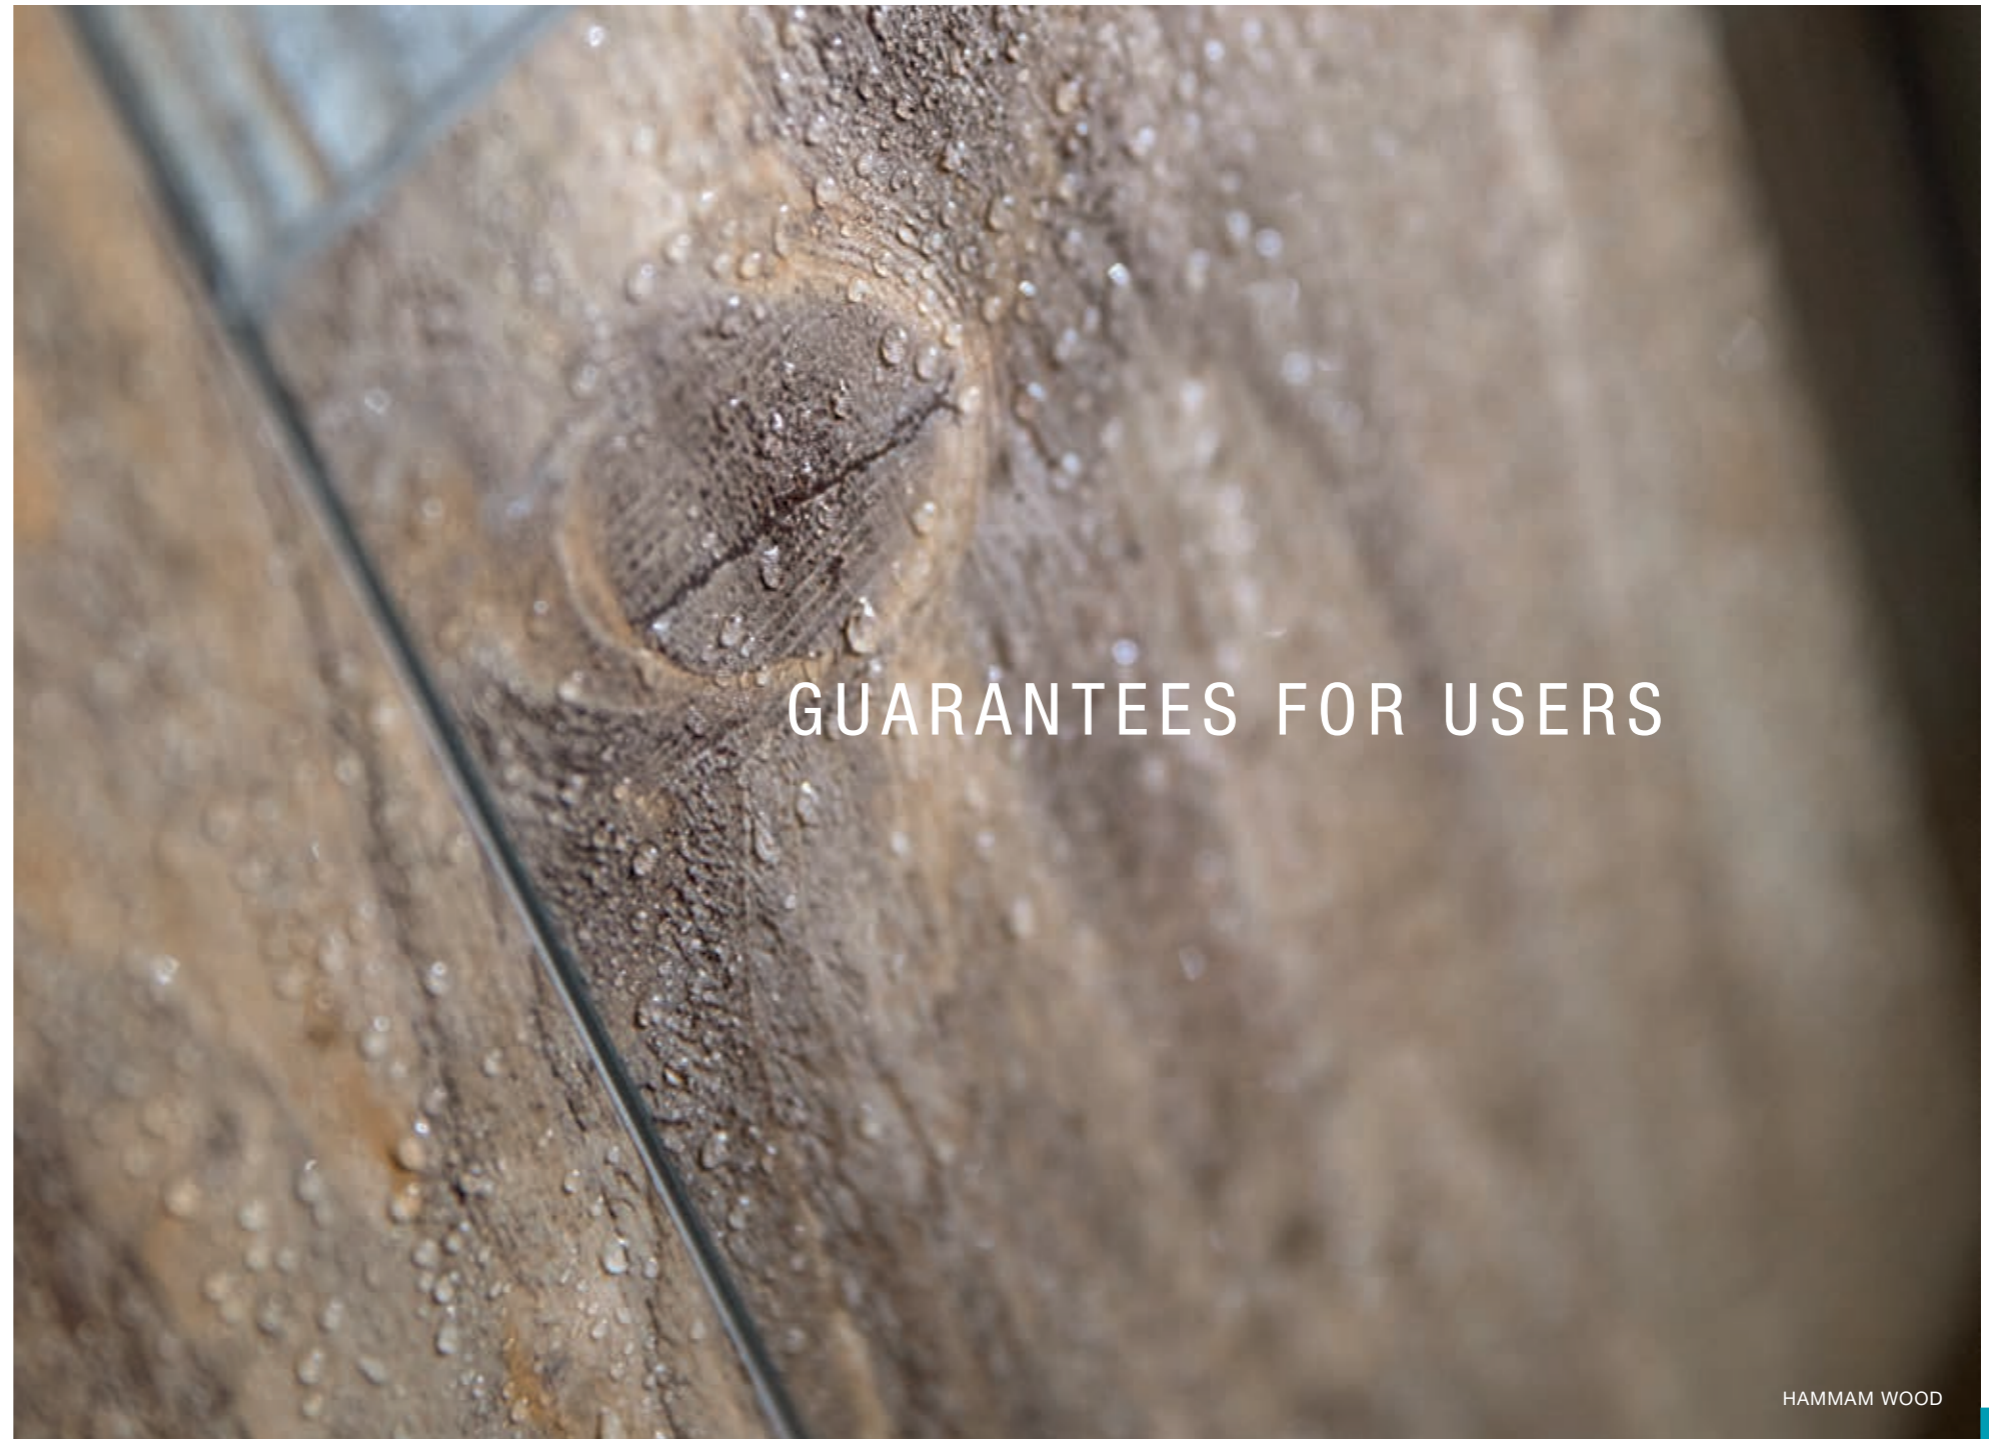

COMPACT AND RESISTANT

Water-repellent, rot-proof and highly resistant, GX WALL⁺ tiles do not distort, crack or discolour over time.

HEALTHY AND PRACTICAL

Easy to clean, with no joints to scrub, the tiles are 100% hygienic. In addition, they respect the air quality (A+) and are 100% recyclables.

GUARANTEES FOR USERS

A MULTITUDE OF POSSIBILITIES

From restaurants to hotel rooms or stores, student residences to senior residences, from gyms to hospitals...

GX WALL⁺ decorative PVC wall panels are an ideal solution to quickly renovate busy spaces.
